PICTORIAL HISTORY

THE UNITED STATES,

FROM the discovery of America by the Northmen to the present time.—By Jours Fasort, Professor of Belles Lettres of the High School of Philadelphia.—Embellished by upwards of three hundred original cuts, designed by Croome expressly for this work.—Now in progress of publication, and to be completed in twenty monthly numbers, at the unparalleled low price of twenty-five cents each; the whole forming four octavo volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers: and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In carrying out this undertaking, a great investment

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill employed to render it a work worthy of the admiration of every lover of his country; and one to which every patriot may point as an evidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the first of each month until the whole is perfected. At the conclusion of each volume, a complete index and title race will be foreight.

cach month until the whole is perfected. At the conclusion of each volume, a complete index and title page will be furnished.

The publisher pledges himself that the embellishments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures will of course be regulated by the subject, some chapters being much more susceptible of rich pictorial embellishments than others. The succeeding parts will contain the same number of pages as this. Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please remit five dollars, free of expense of postage, (Postmusters' franks can always be obtained for remittances for periodicals,) and the whole will be sent.—Clubs, by a remittance of fitteen, five copies. Postage of each number, under an hundred miles, four and one-half cents; upwards of an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to make application.

of memmoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: §1 50 per annum, in advance. Both papers sent to one address for \$3 00, in advance.

The "German in America" is a paper principally of a literary character, and intended to be an interpreting medium between the literary genius of the Saxon and Anglo-Saxon race. It will exhibit some of the best literary product ons, especially poetical, in each language, with parallel versions in the other. To those therefore of the English-American public, who are studying the German language, or wish to become familiar with German literature, this paper is strongly recommended. I contains a complete list of all books, periodicals, etc, published in Germany. Business men who deal, or wish to deal, with the American population of the German tongue, will find it greatly to their advantage to advertis in this paper. It has already acquired a circulation which extends over the whole Union, the contiguous South, Canada, and Germany, and by far exceeds that of any other German paper in the Union—its tendency being not of a local, but of a universal character. Be dides this, the rates of advertising in both papers are exceedingly low, so as to enable every body to advertise who can be profitted by it.

In Plublishers will oblige by early communicating copies of new publica ions which will be critically noticed. We intend to furnish the German public here, and on the other side of the Atlantic, with a complete review of all productions of the American press worthy of notice.

PROSPECTUS OF A NEW AND VERY CHEAP MAGAZINE.
On the first day of April, was commenced a new Magazine, to take the place of the "Fis size and Budget,"

BALTIMORE MONTHLY VISITER

under the title of the BALTIMORE MONTHLY VISITER. It is issued with a far neater cover, on good paper and type, and is composed of closely printed matter, amounting to nearly four hundred pages per volume. Each number will be accompanied by a very fine wood cut, illustrating the natural history and customs of the month for which each number is intended. Each design will be accompanied by both prose and poetic sketches, not only of the general features and holiday customs, but likewise of the agricultural poculiarities of every month. This will be a new leature, and, it is hoped, will render the Monthly Visiter a peculiarity welcome guest on every farmer's table. The first number is likewise embellished with an engraving, representing Shakspeare's Taming the Shrew, illustrated by a story from the pen of the late Charles Lamb, one of the most popular authors England has ever boasted. This plate, and the illustrations of the months, have never appeared in any other magazine.

The quality of the reading matter of the Baltimore Monthly Visiter, may be inferred from the following list of contributors, to which other distinguished names will be, from time to time, added. To instruct and to amuse will be our aim.

Cantributors.—Rev. E. Y. Reese, Rev. Leander Kerr, Professor Chapin A. Harris, Dr. C. C. Cox, Dr. James Framition, Dr. John Fonerden, Messrs. M. Topham Evans, T. S. In the line of critical notices of new books, a decicied improvement has been made upon the plan of the "Phenix and Budget"—and in the way of stories an important reform has been adopted, which wil. abolish the plan of giving long novels continued, provokingly, from number to number.

In order to place the work in the hands of such as may not feel willing to pay the more expensive prices of monthly magazines, the proprietor has determined to publish the work at the extremely low price charged for its plainer and unillustrated predecessor. The price will therefore be § 150 per year for a single copy—five copies for \$500. This is giving about four pages for one cent!

It is desirable to receive orders at once, that we may know how to regulate our issues.

THE GREAT OBJECT GAINED!

THE GREAT OBJECT GAINED!

Peters' Medicated Lozenges are the most valuable discovery of the 19th century. They are entirely pleasant to the taste, and more efficient than any other medicine. These Lozenges are the result of long-continued and patient investigation and experiment, conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the beat known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular form of Lozenges for nearly every disease incident to the human system.

To parents we would say, do not be without these Lozenges at any time—attend to these suggestions as

WORM LOZENGES.

WORM LOZENGES.

Dr. Peters' Worm Lozenges are the surest and safest worm destroyer ever discovered.

It is estimated that, in the United States, 100,000 children die yearly from the effect of worms alone. This vast mortality can be almost entirely prevented by the use of Peters' celebrated Lozenges. Thousands and tens of thousands pine away and die without suspecting the real disease. The following are a few of the symptoms: headache, pale lips, flushed cheeks, disturbed dreams, foverishness, thirst, bad taste in the mouth, offensive breath, litching of the nostrils, pain in the stomach, nausea, unnatural appetite, swelled stomach or limbs, sense of something rising in the chest, &c.

Erms. Catharine Ann Briggs, Cherry street, Philadelphia, has a little daughter who had been in a decline for several years. At times she would eat voraciously, and sometimes eat nothing at all; and she was fast wasting away. Her symptoms were so unusual and c. ntradictory that the dectors knew not what to do; but do what they would she continually grew worse, and reductinity they declared he must die. At the request of a friend, the mother at this stage procured a box of Peters' Worm Lozenges. The first dose satisfied all that worms was the cause of all the child's sufferings, and two boxes effected a perfect cure.

STRENGTHENING PLASTER.

This is not only the cheapest, but the best, neatest and most comfortable plaster in existence.

Peters' Shifting Plaster is an easy and most effective remedy for pain in the breast, side, or stomach, weakness or pain in the chest, loins, or back—stiffness of the neck, affections of the limbs or joints, whether produced by rheumatism or other causes, habitual pain of the head or stomach, piles, colds, coughs, liver complaints, weakness of the spine, predisposi ion to break out in biles and pimples, listlessness of the frame, and for general debilitation.

Let any person afflicted as above try one of Peters' Shifting Plasters, and we will venture to say that he could not be prevailed on to discard it again, for ten, or most probably for a hundred dollars. Price twelve and a half cents.
